FCC Mail Room

DOCKET FILE COPY ORIGINAL

Dear Sir or Madam,

I am writing today because FCC Chairman Ajit Pai has made a dangerous proposal to destroy the FCC's Internet Neutrality rules.

Destroying Internet Neutrality will (among having other negative impacts):

- Destroy the quality of service we receive
- Lead to fewer or no choices among Internet Service Providers
- Reduce bandwidth
- Slow down our Internet speed
- Allow companies to make content unavailable to users
- Allow companies to create monopolies
- Deteriorate customer service
- Inhibit our ability to communicate with friends and family throughout the world
- Set the stage for powerful companies to impose their will on consumers

Internet Neutrality rules serve as a protection for consumers like me. Without these protections we are sitting ducks for these companies.

I strongly urge Chairman Ajit Pai to withdraw his proposal. It will have only a negative impact on consumers.

In addition, with respect, I have to consider Chairman Ajit Pai's background with regard to this proposal. It might appear to some to be a conflict of interest and not a sound decision based on what's best for consumers.

If you have any questions or need additional information, please feel free to contact me any time via phone at 843-687-0847 or via email at keithanywhere@yahoo.com.

Thank you for your kind attention and assistance.

Best regards,

Keith Herman
